Step 2. Verify Ethnicity/Race

Dear Parent or Guardian:

Every school district is required to report to the Department of Education each year student data by race and ethnicity categories that are set by the federal government. The Department of Education does not report individual student data to the federal government but does report the total number of students in various categories in each school. These reports help us keep track of changes in student enrollments and ensure that all students receive the education programs and services to which they are entitled.

Please complete the online form by no later than the first day of school.

For more information about the student data reporting categories for ethnicity and race, please contact the district office.

Sincerely,
Alpine School District
